## YOUR RING SIZE GUIDE

Important :

In order to make sure your size guide has been properly printed in 100 % size, make sure the measure of the line below is 5 cm.

Pick up one of your ring which fits the finger you want to have your Avenda ring placed. Place it on one of the circles from the size guide below. The perfect size is the one where the black line from the circle shows up completely without any white background being visible.

The white background is still visible : you need to look for a bigger size.

The circumference matches perfectly with those of the black circle : this is the right size.

The drawn circle isn't visible anymore : you need to look for a smaller size.

Avenda proposes you the following sizes : from 50 to 60 (for some ring styles, sizes 48/49 and 61/62 can be considered upon request, please contact our customer service for further information).

Remember the figure which appears inside the circle, it is the size of your ring for the finger you've picked up.
